Letter no. C.2/29-30 dt 18-11-30 from the Pdt, Bay Bd, U.S.T requesting sanction to the resolution of the Bd adopting the report of the lighting sub committee, appointed to re-examine the question of possible reduction and distribution of lights in the Bay Bd area.

It is seen from the papers that an estimate for Rs 3147/- has been prepared by the Electrical Deptt for the U.S.T street lighting. Half the cost of the estimate will be met by the Bay Bd and the other half by the Electrical Deptt.

The proposed redistribution of lights will result in a reduction of current expenditure on lighting by Rs 630. This will redeem the Board's share of the capital expenditure plus interest at 5% in about 3 years.

SIR,

Subject:- K.G.F.Street Lighting.

I have the honour to submit herewith a copy of the Board's resolution passed at their meeting held on 31st October 1930 adopting the Lighting Sub-Committee's report.

A copy of the said Sub-Committee's report is also submitted herewith.

As recommended by the Sub-Committee and as desired by the Chief Operator, C.P.S., in his letter No.14692 dated 3rd September 1930, a Cheque for Rs.1,574/- being the moiety of cost of the estimate for the proposed changes in the K.G.F.Street Lighting has been sent to the Chief Operator, this day.

I request that you will be so good as to obtain the sanction of Government to the resolution of the Board adopting the report of the re-appointed Lighting Sub-Committee.

Copies of correspondence between the Chief Operator and Mr. W.T.Hudson, Chairman of the re-appointed Lighting Sub-Committee are herein enclosed.

I have the honour to be,
S i r,
Your most obedient servant,

Veeraraghavachar

For President,
K.G.F.Sanitary Board.

KOLAR GOLD FIELD SANITARY BOARD.

Proceedings of the Second Ordinary meeting of the Kolar Gold Field Sanitary Board, for the year 1930-31, held on Friday the 31st October 1930, at 3-30 P.M., in the Sanitary Board Office, at Champion Reef

17. Report of the Lighting Sub-Committee, dated 12th September 1930, appointed to re-examine the question of the possible reduction and distribution of lights in the Board area.

Resolution:- The Report of the Sub-Committee is adopted. The Board are agree to pay half the cost of the estimate, now prepared by the Electrical Department, for giving effect to the recommendations of the Sub-Committee as desired by the Chief Electrical Engineer.

KOLAR GOLD FIELDS, 4

12th September 1930.

Report of Lighting Sub-Committee re-appointed by the Sanitary Board, Kolar Gold Field, on 21st February 1930.

-----:O:--

The resolution of the Board was as follows:-

Resolution of Sanitary Board.

That the Lighting Sub-Committee be re-appointed with Mr.L.J.Gordon, Chief Operator, C.P.S., as an additional member

Terms of reference.

(1) To re-examine the question of the possible reduction and distribution of Electric Lights in the K.G.F.Sanitary Board area.

(2) To consider petition dated 20th February 1930 from the residents of Balaghat Camp, praying for the installation of lights in the Tank Block Road and in the road leading to Col.C.N.Keith's bungalow.

In the absence of Mr.P.J.Crowle, on leave in England, the Sub-Committee consists of the following members:-

Mr. W.T.Hudson, Chairman
" B.Md.Haneef.
" K.Rajagopal Rao.
" L.J.Gordon.

Sub-Committee's Report dated 21st August 1929.

Reference to first report.

Before reporting upon these terms of reference, it will be necessary to briefly review two recommendations contained in the Sub-Committee's Report to the Sanitary Board dated 21st August 1929.

Those recommendations were:-

Removal of old & installation of new lights.

1. The removal of 60 existing lights from certain points along various specified roads in the Sanitary Board area.

2. The installation of 37 new lights at given points along certain specified roads.

Since the presentation of that report, we have been advised by the Chief Operator, C.P.S., Mr. L.J.Gordon - that the Chief Electrical Engineer to the Government of Mysore, Bangalore, has prepared an estimate of cost covering these two recommendations.

The total estimate amounts to Rs.3,147, but it would

appear that on the advice of the Chief Operator supported by the approval of the Chief Engineer to the Government of Mysore vide attached correspondance from the Chief Operator - Government may agree to pay 50% of this cost provided the Board - finds the money for the remaining 50% or Rs.1,574.

On this assumption and pending confirmation by Government we now complete that report:-

It will be convenient to recall here that in view of this estimate, the net reduction of current expenditure in the annual budget of the Sanitary Board if effect were given to these two recommendations, would be Rs.517-8-0, which would redeem the Board's share of the capital expenditure Rs.1,574 plus interest at 5% in a period of approx. 4 years.

We will now turn to the terms of reference outlined at the beginning of this repo

Reference 1.

Since the date of our first report, 5 new lights of 400 c.p. have been installed at the junction of Krishnaraja and Smith roads.

The annual cost to the Board of these lights in Rs.150 less 25% or Rs.112-8-0. The Nundydroog Company pays the remaining Rs.37-8-0.

No other new lights have been installed in the Sanitary Board area, but on the contrary 2 lights of 40-60 c.p. have been removed.

We have re-examined the question of the possible reduction and re-distribution of electric lights and in - deference to the Board's increasing and urgent need to reduce recurring expenditure, we have faithfully sought means of doing so compatible with the security of traffic and of the residents.

We regret that we cannot depart from the recommendations contained in our first report, except in regard to the second of those.

That recommendation called for the installation of

37 new lights of which 16 were allocated to Robertsonpet and Sonnakuppam Village combined.

We now suggest that these numbers be reduced by 5, making a total of 32 new lights.

The additional recurring expenditure on these 32 lights will be 32 x Rs.22/8 - Rs.720 as against 37 x Rs.22/8 - Rs.832/8 as shown in our first report.

Reduction of current expenditure

The net difference between this proposed additional expenditure on new lighting and the proposed reduction of expenditure on the removal of 60 existing lights - vide, first report will be

| | | |
|---|---|---|
| 60 x 22/8 | Rs. | 1,350. |
| less 32 x 22/8 | " | 720 |
| | Rs. | 630. |

Redemption of Capital

which will redeem the Board's share of the capture, plus interest at 5%, in approx. 3 years.

Acceptance Government offer.

We do not feel that it is in our province to advise the Board to accept the offer of Government - should the offer be made - but will confine ourselves by suggesting that not only from a business point of view but also from the view of the need for the new lights and or the belief that no great inconvenience will be caused by the removal of 60 existing lights, acceptance of the offer seems fully warranted.

While we realize that a few lights along the road name unknown - connecting Balaghat-Marikuppam & Tank Block roads are desirable especially at and in the vicinity of the railway crossing, the petition, including as it does, the installation of lights as far as Krishnapuram village cannot, we suggest, be entertained. The capital expenditure would be out of all proportion to the revenue that Government would derive and it is quite unlikely that Government would agree to the burden of its installation. We also realize that the Board is not in a position to add to its recurring expenditure at the moment.

Petition from Robertsonpet Butchers.

Supplementary to the terms of reference above dealt with,

Location of Robertsonpet Butchers.

the matter of a light opposite the Mutton Stalls in Robertsonpet has been referred to us.

Examination of the locality has convinced us of the need of this light. The cost of its installation will not fall upon the Board and its maintenance is included in the

No.of lights within.area.

The number of existing lights in the area are now 228 - 40 to 60 c.p. and 5 - 400 c.p.

We again call attention to the desirability of substituting 60 c.p. lights in the place of existing 40 c.p.lights.

Plan.

A plan of the roads within the Sanitary Board area is attached. showing the positions of

(a) existing lights - 223 in all

(b) existing lights which are now recommended for removal - 60 in all

(c) new lights which are now recommended for installation - 32 in all.

(d) the shifting of 4 existing lights to points within 200 feet of present positions.

Signed on behalf of the
Lighting Sub-Committee.
W.T.Hudson,

Copy of letter dated 24th July 1930, from Mr.W.T. Hudson, Superintendent, Nundydroog Mines Ltd., Oorgaum, to the Chief Operator, C.P.S., Champion Reefs.

"The Board resolve that the Lighting Sub-Committee be "re-appointed with Mr.L.J.Gordon, the Chief Operator "C.P.S., as an additional member to re-examine the "question of the possible reduction and distribution "of lights in the Board area"

Following upon our visit of inspection accompanied by the Vice President on the 18th inst. it was agreed that it was very desirable that certain lights should be erected in O'Donnell & Plummer roads along which there is a great deal of pedestrian and cart traffic.

On the other hand, the financial possition of the Sanitary Board will not permit the Board to undertake further expenditure in this direction.

I have therefore the honour to request that I may be favoured with the following information:-

(a) the cost of the installation of 9 new lights along O'Donnel Road between the Railway line and the Balaghat-Marikuppam Road.

(b) the cost of erection of 4 new lights along Plummer Road between the Railway and Avenue Road.

(c) whether Government would undertake the cost of (a) & (b)

The Sanitary Board would ofcourse beresponsible for the usual maintenance charge on these additional lights.

The petition for a light in the Mutton Stall area of

Letter No.14571 dated 19th August 1930, from the Chief Operator, C.P.S., Champion Reefs, to Mr.W.T.Hudson, Superintendent, Nundydroog Mines Ltd., Oorgaum.

STREET LIGHTING - K.G

In acknowledging receipt of your letter of even date together with copy of your letter dated the 24th July 1930 addressed to me, I have the honour to state that estimates are being prepared and will be submitted to the Chief Electrical Engineer to the Government of Mysore, Bangalore for disposing of the points raised in your letter of the 24th July 1930 after hearing from the Chief Electrical Engineer, Kolar Gold Field, Electricity Department re; the feasibility of running our street wires over their poles at the level crossing on Plummer Road for which a reply is expected from that officer.

I shall be glad to communicate the decision of the C.E.E. Bangalore, immediately on hearing from him.

Letter No.14649 dated 29th August 1930. from the Chief Operator, C.P.S., Champion Reefs to the Chief Electrical Engineer to the Government of Mysore, Bangalore.

K.G.F.Street Lighting

I have the honour to submit herewith copy of letter dated the 24th July 1930 from Mr.W.T.Hudson,Superintendent,Nundydroog Mines for the Sanitary Board Lighting Sub-Committee,K.G.F. and an estimate for .3,147 together with a report and rough plan, for favour of early sanction. Since it was much cheaper to make one estimate for the whole work, as it would admit of eliminating one of the two wires for a considerable distance and of using the old poles with shifting of power lines in some places, the work of shifting and removal of old lights and the installation of new lights have all been combined as one work.

In accordance with clause 3 of the agreement with the President,Sanitary Board, dated 23-6-1927 the cost of shifting lights beyond 200' and other deviations, extensions, or alterations of the positions of lamps once fixed should be paid for by the consumer. On the other hand clause 2 is specific that any extra lights are to be put at the cost of the supplier. For purposes of this estimate both the works are combined for reasons mentioned above. If the consumer had in the first instance asked for the 38 extra lights before asking for the removal of the 58 existing ones, the cost to the Department would be considerably higher. while the cost of removal of the lights, if asked later, would have been very little but would perhaps have resulted in some credits

Since the intention of the Sanitary Board is to reduce the recurring expenses owing to financial circumstances, it would be reasonably fair if a moiety of the estimated cost of the combined work is debited to the consumer. I therefore recommend that the estimate may kindly be sanctioned under "INTERIOR POWER AND LIGHTING" debiting half the cost thereto and also Under "E.D.D.R" for the other half if Mr.Hudson can have that amount

There are at present 228, 40 to 60 c.p. lights and 1, 5 lightecluster within the Sanitary Board area, K.G.F. and it is proposed to remove 59 lights and refix 38 lights as noted below resulting in a net reduction of 21 lights of 60 c.p. or Rs.472-8-0 per annum in the Departmental revenue.

The chief items of work provided for in the estimate are as follows:-

| | | | |
|---|---|---|---|
| 1. Removal of | (a) | 35 | lights in Sri Krishnaraja Road including Cook & Bowring Roads. |
| | (b) | 11 | lights in Smith Road. |
| | (c) | 1 | " Tank Block Road. |
| | (d) | 3 | " Carr Road. |
| | (e) | 1 | " Oorgaum village. |
| | (f) | 1 | " No.6 Cross Road. |
| | (g) | 3 | " Hancock Road. |
| | (h) | 4 | " Gifford Road. |
| 2. Fixing of | (a) | 11 | " in O'Donnel Road. |
| | (b) | 4 | " Gifford Road. |
| | (c) | 1 | " near Hancock Road. |
| | (d) | 1 | " Opposite to Meat Stall Robertsonpet Market. |
| | (e) | 13 | " in Cross Roads, Robertsonpet. |
| | (f) | 1 | " in Swarnakuppam. |
| | (g) | 6 | " in Plummer Road including Avenue Road. |
| | (h) | 1 | " Mining Road. |
| 3. Shifting of 3 lights. | | | 2 in Krishnaraja Road, 1 in Minny Road. |

To minimise expenditure it is proposed to deviate the power line now running cross-country for Andersonpet on to O'Donnel Road with credits of the poles and other materials and to remove one of two wires along Gifford and Hancock Roads and wherever else possible or cheaper than using poles for otherwise completing the circuit, It is necessary to run our wire on 2 or 3 poles at the crossing of K.G.F.,E.D., power lines in such places as Gifford and Plummer Roads with the permission of that Department to avoid heavy expenditure by using special poles and guard wires at the crossings.

The estimate has to be prepared for the whole work

GOVERNMENT OF MYSORE

Office of the Chief Operator,

Champion Reefs. 2/3rd Septr.1930.

W.T.Hudson, Esq.,

Superintendent,

Nundydroog Mines,

Oorgaum.

Dear Sir,

K.G.F.Street Lighting.

With reference to correspondance ending with my No.14651 dated the 30th ultimo, I have the pleasure in informing you that the Chief Electrical Engineer to the Government of Mysore,Bangalore,has approved of accepting a moiety of the cost of the estimate for Rs 3,147/-as recommended in my No. 14649 dated the 29th August 1930 a copy of which was also forwarded to you.

I shall be glad if you will kindly arrange to remit,as early as possible the sum of Rs1,574/- so that I may address the Chief Electrical Engineer to accord early sanction to the estimate.

I have the honour to be,

S i r,

Your most obedient servant,

Sd. L.J.Gordon,

Chief Operator.

Copy of letter dated 4th September 1930 from the Superintendent, Nundydroog Mines Ltd., Ooregum, to the Chief Operator, Cauvery Power Scheme, Champion Reefs.

-----:O:-----

K.G.F.Street Lighting.

I beg to acknowledge the receipt of your communication No.14692 dated 2nd inst. from which I note that the Chief Electrical Engineer to the Govt. of Mysore has agreed to accept 50% of the tatal cost of new installations that have come under review in the course of our recent correspondance, & the total cost to the K.G.F.Sanitary Board will be Rs.1,574. This matter will now be considered by the Sub-Committee appointed by the Sanitary Board who will then report upon the proposition to the Board who alone are competent to avail themselves of the concession made by the Chief Electrical Engineer.

Vice President,
K.G.F.Sanitary Board.

Champion Reefs,
18th November 1930.

CEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE

Read:—

Letter No.C.E./29-30 dated, the 18th November 1930, from the President, Sanitary Board, Kolar Gold Fields, requesting sanction to the resolution of the Board adopting the report of the Lighting Sub Committee appointed to re-examine the question of the possible reduction and distribution of lights in the Sanitary Board area and agreeing to pay half the cost of the estimate for Rs.3,147/- prepared by the Electrical Department for giving effect to the recommendations of the Sub Committee and stating that a cheque for Rs.1,574/- being the moiety of the cost of the estimate to be borne by the Sanitary Board has been sent to the Chief Operator, Cauvery Power Scheme, Champion Reefs on 18th November 1930.

ORDER NO.L. 5307-8/LB 26-30-15

Dated, Bangalore, the 27th December 1930.

It is observed that the Lighting Sub Committee considers that the proposed removal of 60 existing lights and installation of 32 new lights will result in a reduction of the current expenditure on lighting by Rs.630/- per annum, and the savings thus effected will redeem the Board's share of the capital expenditure now to be incurred plus interest at 5% in about 3 years, under the circumstances, the resolution of the Board is sanctioned.

N. Iyengar
